

# Electrical Cable Solutions... Synergy Across Multiple Industries...

## Oil & Gas

INTERKAB's experience within the upstream Oil & Gas sector dates back to the early eighties...we provide projects with stock & bespoke manufactured solutions and the complete electrical equipment packages for the harshest operating environments and latest fire resistant types.

## Petrochemical

INTERKAB's involvement in the downstream sector has provided us with a wealth of experience in developing cable management solutions from factory to site installation, providing you with the assurance you will be supported from conceptual design to project completion.

## Power Generation

INTERKAB provide the entire range of onshore cables and electrical accessories for application in the nuclear power generation sector.

## Renewable

INTERKAB are involved in supporting the ongoing European developments for the provision of onshore and offshore cabling

## Products and Services

### Offshore Specifications

- BS6883 / BS7917
- NEK606 / IEC 61892 - 4
- IEC-60092
- MPRXCX / XI / XAI
- MGCG
- IEC-60331

### Onshore Specifications

- BS5467 / BS5308
- DIN / VDE / Cenelec
- IEC-60502
- EEMUA
- IEC-60331
- IEC-60332 Cat A,B & C

### Electrical Equipment

- Cable Glands
- Termination Kits
- JB's & Enclosures
- Distribution Boards / Panels
- Hazardous Area Plugs / Sockets
- Cable Supports and Fixings
- Crimps and Lugs

"The Synergy of Design, Specification, Procurement, Expediting, Inspection and Material Management"

### Project Management Services

- Technical Design Support
- Engineering Consolidation
- Supply Chain Integration
- Inventory Management and Disposal
- Expediting, Inspection and Logistics
- Document Control

### Cable Types - Fire Resistant & Flame Retardant

- Medium Voltage up to 33kV
- Low Voltage Power & Control
- Instrument & Telecoms
- Fibre Optic & Data
- Custom Project Specifications
- Subsea & Umbilical

Adding Value to Your Supply Chain  
One Partner... One Solution...

INTERNATIONAL CABLE MANAGEMENT

**INTERKAB...**  
**The Leading Service Company in the Management and Supply of Electrical Cables and Associated Accessories**

INTERKAB is the brand name of International Cable Management Ltd, a leading service company in the management and supply of electrical cables and associated electrical equipment across the Oil & Gas, Petrochemical, Power Generation, Shipbuilding, Renewable and Energy industries worldwide.

INTERKAB's management has over 100 years' experience in the cable industry. INTERKAB, is project focused, supporting major Operators, EPC Contractors, OEM's and Specialist Contractors, with requirements for standard, non-standard or project specification cables, offering clients all the capabilities of a manufacturer with the flexibility of immediate supply of standard products as a stockist.

As a service company working with multiple manufacturers internationally, INTERKAB offer clients a flexible manufacturing

solution capable of producing a wide range of cable types to European, IEC, British, American, Russian and Australian specifications.

**"Understanding and working in partnership with our clients is key"**

INTERKAB's services add value to clients supply chain by not only minimising cable costs, but also the management, expediting, logistical and administration resource costs associated with procuring different cable types from multiple manufacturers in various geographical regions. Our goal is to provide services and solutions which meet client requirements in terms of specification, site location, quality, cost and time frame and to deliver both direct and indirect savings back to the client in the process.

"Understanding and working in partnership with our clients is key, INTERKAB's clients not only desire to drive down the costs of cables but also streamline the procurement process. Our clients have to procure a broad range of different commodities for their projects, some on long lead times which require significant input from engineering, expediting, logistics, procurement and project management personnel. Cable is a key commodity required on all major projects, INTERKAB work with the client to understand their specific requirements, offer a perfect fit solution and use our dedicated resource to manage, expedite and achieve that solution with minimal input from the client." Michael Knox - Managing Director

## Key Differences

- Diverse Product Portfolio
- Single Point of Contact
- Proactive Communication
- Technical Support
- Commercial Support
- Immediate Solutions
- Global Capabilities
- Project Management

## Global Markets

- United Kingdom
- Europe
- Middle East
- FSU
- North Africa
- Australia and New Zealand
- North and South America
- Canada

## Divisions

### Projects

INTERKAB's dedicated Projects Division specialise in providing turn-key cable supply services and cable management solutions for major Greenfield and Brownfield project work across multiple industries worldwide

### Distribution

INTERKAB's dedicated Distribution Division is focused on supporting immediate requirements for standard cables and associated electrical equipment

### Exports

INTERKAB's Export Division is focused on supporting international clients with immediate or urgent requirements for standard or non-standard cables and associated electrical equipment either from stock or manufactured on a fast track basis
